

REVENUE SHARE AGREEMENT

Rama · azender1 / SafeAgent

v0.6 · June 02, 2026

PARTIES

This Revenue Share Agreement ("Agreement") is entered into as of 2026-06-01 ("Effective Date") by and between:

Pablo Damian Etcheverry operating as Rama (CUIT 20-27151903-7, ARCA — Argentina), a software project and ecosystem currently unincorporated ("Rama"), and

azender1 / SafeAgent, TRAIL ORIENTED ENTITY, operator of SafeAgent, a financially-meaningful agent execution platform built on the Mycelium protocol stack ("Integrator").

Collectively referred to as the "Parties."

Future Entity. If Rama incorporates a legal entity at any point during the Term, that entity shall automatically assume all of Rama's rights and obligations under this Agreement without requiring a separate novation or consent from Integrator.

1. PURPOSE

Rama operates the Mycelium protocol stack, which includes on-chain trail anchoring, karma scoring, and associated services (collectively, "the Stack"). Integrator is building software that uses the Stack via its published APIs and MCP servers. This Agreement establishes the terms under which Integrator participates in the revenue generated by its use of the Stack.

2. REVENUE SHARE — TIERED

2.1 Measurement. Revenue attributable to Integrator is calculated as the total fees paid by Integrator or its end users for trail anchoring, memory, search, and oasis services during each calendar month ("Integrator Monthly Revenue"). Trail counts are determined by on-chain records in the Giskard Payments contract deployed on Arbitrum One at address 0xD467CD1e34515d58F98f8Eb66C0892643ec86AD3, which are authoritative and not subject to dispute.

2.2 Share tiers. Rama will pay Integrator within 15 days after month end:

Tier	Volume (trails/month)	Revenue Share
Tier 1	1 – 2,000	10%
Tier 2	2,001 – 15,000	14%
Tier 3	above 15,000	18%

The applicable tier is determined by total trails anchored during that calendar month. The full month is calculated at the tier reached, not blended across tiers.

2.3 Payment method. BTC via Lightning Network, USDC on Arbitrum One, or USD bank transfer, at Integrator's election. Payment details provided in writing within 5 business days of signing.

2.4 Minimum threshold. No payment is due for months where Integrator Monthly Revenue is below USD 10. Amounts below threshold accumulate and are paid when the cumulative total exceeds USD 10.

3. TERM AND ACTIVATION

3.1 Activation. This Agreement activates upon Integrator's first confirmed trail payment on Arbitrum mainnet (not testnet). Prior to that event, this Agreement is signed but dormant.

3.2 Term. Valid for 24 months from the Activation Date, renewable by mutual written agreement. At the 12-month mark, both Parties agree to review the revenue share tiers and terms in good faith. Either Party may propose adjustments; any change requires written consent of both Parties.

3.3 Termination. Either Party may terminate with 30 days written notice. Revenue share accrued prior to termination is paid in full within 15 days of the termination effective date. Any equity conversion right earned prior to termination (per §4.1) remains valid for 90 days after termination. Neither Party may assign this Agreement or any rights hereunder without the prior written consent of the other Party, except that Rama may assign to a Future Entity as provided in the Parties section above.

4. EQUITY CONVERSION

4.1 Right to convert. If Integrator reaches Tier 2 or above for 3 consecutive calendar months, Integrator acquires the right (but not the obligation) to convert accumulated revenue share payments into equity of a future legal entity formed by Rama ("Future Entity").

4.2 Conversion terms:

- (a) Valuation: the greater of USD 5,000,000 or 8× annualized MRR at the month preceding exercise notice.
- (b) Equity %: $\text{conversion amount} \div \text{post-money valuation at time of conversion}$.
- (c) Instrument: SAFE or equivalent, governed by the Future Entity's jurisdiction.
- (d) Deadline: 90 days after Future Entity incorporation and written notice to Integrator.

4.3 Nothing obligates Rama to form the Future Entity. If no entity is formed within 36 months of the Effective Date, the conversion right expires.

4.4 If multiple integrators exercise conversion rights, all convert simultaneously at the same terms.

5. CONFIDENTIALITY

Both Parties agree to keep the specific terms of this Agreement confidential. Either Party may disclose the existence of a revenue sharing arrangement without disclosing specific percentages or amounts.

6. NO EMPLOYMENT, PARTNERSHIP, OR AGENCY

This Agreement does not create an employment relationship, partnership, joint venture, or agency between the Parties. Integrator is an independent actor using the Stack under its published terms.

7. GOVERNING LAW AND DISPUTES

This Agreement is governed by the laws of England and Wales. Any dispute arising out of or in connection with this Agreement, including any question regarding its existence, validity or termination, shall be referred to and finally resolved by arbitration under the LCIA Rules, which Rules are deemed to be incorporated by reference into this clause. The number of arbitrators shall be one. The seat, or legal place, of arbitration shall be London, England. The language to be used in the arbitral proceedings shall be English. The award shall be final and binding on both Parties.

8. ENTIRE AGREEMENT

This Agreement supersedes all prior discussions, whether oral or written. Amendments require written consent of both Parties.

9. INDEMNIFICATION

9.1 Integrator indemnifies Rama from claims arising from: (a) claims arising from SafeAgent's role as execution guard and audit infrastructure in connection with financial transactions; (b) regulatory actions related to Integrator's use of the Stack; (c) breach of Integrator's representations under §10; (d) claims by end users from financial transactions via SafeAgent. The indemnification obligations of Integrator under this §9.1 are not subject to the liability cap set forth in §9.4.

9.2 Rama indemnifies Integrator from claims arising from: (a) verifiable defects or failures in the Stack's core services directly causing loss to Integrator; (b) Stack infringement of third-party intellectual property.

9.3 **Conditions.** Indemnifying party's obligations require: (a) prompt written notice of claim; (b) sole control of defense and settlement granted to indemnifying party; (c) reasonable cooperation at indemnifying party's expense.

9.4 **Limitation of liability.** Neither Party shall be liable for indirect, incidental, or consequential damages. Total cumulative liability of either Party shall not exceed revenue share payments made or received in the 12 calendar months preceding the claim event. Notwithstanding the foregoing, the limitations in this §9.4 shall not apply to: (a) claims arising from infringement of intellectual property rights; (b) breach of §5 (Confidentiality); (c) gross negligence or willful misconduct; or (d) Integrator's data protection obligations under §10.6.

9.5 **Survival.** The indemnification obligations of §9.1 and §9.2, and the limitations of §9.4, shall survive the expiration or termination of this Agreement.

10. REPRESENTATIONS AND WARRANTIES OF INTEGRATOR

Integrator represents and warrants, on a continuing basis throughout the Term, that:

10.1 **Legal authority.** Integrator has legal capacity and authority to enter this Agreement.

10.2 **Regulatory compliance.** It holds all licenses required for operating execution guard and audit infrastructure in its operating jurisdictions and is solely responsible for regulatory compliance.

10.3 **No regulatory action.** Integrator is not subject to pending regulatory action as of signing, and will notify Rama within 5 business days if any such action is initiated during the Term.

10.4 **End user disclosure.** Integrator will maintain clear disclosures to end users about SafeAgent's automated nature and the Stack's role as audit infrastructure — not financial advisor, broker, or execution guarantor.

10.5 **No misrepresentation of Rama's role.** Integrator shall not represent Rama or the Stack as a party to, responsible for, or endorsing any financial transaction executed through SafeAgent.

10.6 **Data and privacy.** Integrator shall comply with all applicable data protection laws in connection with personal data processed through SafeAgent.

10.7 **No sanctions violations.** Integrator will not transact with any person or entity subject to sanctions administered by OFAC, the EU, the UN, or any other applicable sanctions authority.
